

New Features		
Spark Software		
Production/Host		
1	Export Audio	Progress Window during Audio Export. Pre-render is available on right-click on the pattern in the library to avoid rendering during drag. The rendered patterns can be dragged after rendering.
2	Studio	Preview samples in the Sample loading Dialog Box
3	Automations	Added vst automations on Loop feature and Pad Fx
4	Audio Preferences	Dialog box GUI updated for more consistency
Live/DJ		
5	Mute/Solo	Recall of last Mute/Solo
6	Tempo	Add a way to increase or decrease temporarily the tempo (DJ desk Mode).
7	Slicer	Realtime Slicer + improvements
8	Automations	Erase automation with Erase+automated knob
Spark Hardware		
Shortcuts		
8	Automations	Add a way to erase automation from the controller
9	Pattern	Add a way to Copy/Paste patterns from the controller
10	Metronome	Add a way to set metronome on/off from the controller
11	Mute/Solo	Add a way to set Mute and Solo with no recall
12	Sequencer	Add a way to set pattern length from the controller (Select + >> <<)
13	Shortcuts for panels	Add a way to display panels from controller
14	Sequencer	Add a way to set Rec quantized/unquantized pref from controller
15	Tempo	Add a way to to increase or decrease temporarily the tempo (DJ desk Mode) from the controller
16	Tempo	Add a way to display tempo on the screen from the controller
17	Automations	Add a way to change parameter assigned to parameter knobs from the controller
Bug Fix		
1	Loading instruments	loading an instrument from the library view resets the project list to the first project
2	LCD	Changing value on a parameter will scroll the LCD to display beginning of parameter name
3	Erase	Sometimes erase waits for the cancel event for ages
4	Sequencer	Adding a step in the soft sequencer should light the matching step on the controller
5	Sequencer	Led off on first step when is set on and current position is on the first step
6	Project	In plugin Mode, project data can be corrupted when reloaded if it has been saved in the meantime in standalone mode

7	Roll	When Spark interface is closed Roll can sometimes be triggered on the selected instrument with no reason.
8	sample	Sample Release is set to 0 when a new empty project is created. Some samples are not audible after Rex import.
9	studio	Drum icons highlight when playing
10	Automations	sometimes parameter go back to a value a the beginning of the pattern without any automation
11	Automations	First quarter motion doesn't work sometimes
12	Automations	Erase Automation on parameter 4, 5 and 6 doesn't work
13	Automations	Crash when a parameter already assigned is reassigned for instrument 9 to 16
14	Shuffle	Shuffle behaviour is sometimes weird for value when knob is turned more than half
15	Projet	Special characters are not filtered in project name. This can sometimes lead to corrupted project especially when Slash character is used.
16	Jog Dial/Library	Improvements for the Jog Dial used in Instrument Mode. The project and instrument selected by the jog dial is displayed in the library
17	LCD Messages	Improvements
18	Automations	Automation on/off parameter is not saved
19	New Project	When creating a new project and loading drums, instrument's names are not updated
20	Load	Crash when loading a project
